

TENNESSEE DEPARTMENT OF

EDUCATION
FIRST TO THE TOP

Veterinary Science

Primary Career Cluster:	Agriculture, Food and Natural Resources
Consultant:	Steven Gass, (615) 532-2847, Steven.Gass@tn.gov
Course Code(s):	TBD
Prerequisite(s):	Agriscience (5957)
Credit:	1
Grade Level:	12
Graduation Requirements:	This course satisfies one of three credits required for an elective focus when taken in conjunction with other Agriculture courses.
Programs of Study and Sequence:	This is the fourth and final course in the <i>Veterinary and Animal Science</i> program of study.
Necessary Equipment:	Refer to the Teacher Resources page below.
Aligned Student Organization(s):	FFA: http://www.tnffa.org Allie Ellis, (615) 253-5207, Allie.Ellis@tn.gov
Supervised Agricultural Experience and/or Coordinating Work-Based Learning:	All Agriculture students are encouraged to participate in a Supervised Agricultural Experience (SAE) program. In addition, if a teacher has completed work-based learning training, he or she can offer appropriate placement. For more information, please visit http://www.tn.gov/education/cte/wb/ .
Available Student Industry Certifications:	None
Dual Credit or Dual Enrollment Opportunities:	There are currently dual credit and dual enrollment opportunities with specific community colleges and universities, including University of Tennessee Martin, Tennessee Tech University, and Volunteer State Community College.
Teacher Endorsement(s):	(048 and 015), (048 and 016), (048 and 017), (048 and 081), (048 and 211), (048 and 212), (048 and 213), (048 and 214), (048 and 414), (048 and 415), (048 and 416), (048 and 417), (048 and 418), (048 and 449) or (448 and 015), (448 and 016), (448 and 017), (448 and 081), (448 and 211), (448 and 212), (448 and 213), (448 and 214), (448 and 414), (448 and 415), (448 and 416), (448 and 417), (448 and 418), (448 and 449)
Required Teacher Certifications/Training:	None
Teacher Resources:	http://www.tn.gov/education/cte/AgricultureFoodNaturalResources.shtml

Course Description

Veterinary Science is an advanced course in animal science and care for students interested in learning more about becoming a veterinarian, vet tech, vet assistant, or pursuing a variety of scientific, health, or

agriculture professions. This course covers principles of health and disease, basic animal care and nursing, clinical and laboratory procedures, and additional industry-related career and leadership knowledge and skills. Standards in this course are aligned with Tennessee Common Core State Standards for English Language Arts & Literacy in Technical Subjects and Tennessee state standards in Anatomy and Physiology, Biology I, and Biology II, as well as National Agriculture, Food and Natural Resources Career Cluster Content Standards.*

Program of Study Application

This is the fourth and final course in *Veterinary and Animal Sciences* program of study. For more information on the benefits and requirements of implementing this program in full, please visit the Agriculture, Food, and Natural Resources website at <http://www.tn.gov/education/cte/AgricultureFoodNaturalResources.shtml>.

Course Standards

Economic, Occupational, and Technological Implications

- 1) Explore and compare local and regional career opportunities in the veterinary science industry using information from local job postings and Tennessee labor data. Describe in a written or visual representation the knowledge, skills, and abilities necessary for a selected occupation in veterinary science. (TN CCSS Reading 1, 2; TN CCSS Writing 4)
- 2) Examine specific technologies that have evolved within the veterinary science industry including but not limited to advances in equipment, procedures, and healthcare, and evaluate the economic and societal implications of each. Explain in an informative essay how these advances have impacted the veterinary science industry. (TN CCSS Writing 2, 4, 7, 8, 9)

Personal and Occupational Health and Safety

- 3) Compare and contrast the safety hazards associated with clinical and field settings. Review safety hazard case studies and recommend research-based practices to prevent the safety hazard in the future. (TN CCSS Reading 1, 9)
- 4) Review common laboratory safety procedures for tool and equipment operation in the veterinary science laboratories, including but not limited to accident prevention and control procedures. Demonstrate the ability to follow safety and operational procedures in a lab setting and complete a safety test with 100 percent accuracy. (TN CCSS Reading 3)
- 5) Demonstrate in a live setting or in a presentation the ability to follow procedures precisely for the following areas:
 - a. Animal restraint and handling in clinical or field settings
 - b. Sanitation, disinfection, and sterilization procedures to prevent transfer of zoonotic diseases
 - a. Material safety data sheets (MSDS) interpretation(TN CCSS Reading 3)

Veterinary Law and Ethics

- 6) Gather and compare information from a variety of authoritative sources (such as professional associations or non-profit organizations) on the philosophical, social, moral, and ethical issues encountered in the veterinary profession. Debate their implications for practitioners of veterinary science by developing claim(s) and counterclaim(s) supported by reasoning and evidence from research. (TN CCSS Reading 1; TN CCSS Writing 1, 4, 7, 8, 9)
- 7) Citing specific textual evidence from legislation and news media, summarize local, state, and federal laws that regulate policies and procedures in veterinary medicine pertaining to:
 - a. Animal rights and welfare
 - b. Professional licensing
 - c. Liability of veterinary staff
 - d. U.S. Food and Drug Administration (FDA), U.S. Department of Agriculture (USDA), and U.S. Environmental Protection Agency (EPA) regulations for veterinary drugs and biologicals
 - e. Occupational Safety and Health Administration (OSHA) regulations for workplace safety(TN CCSS Reading 1, 2; TN CCSS Writing 7, 9)

Clinical Anatomy and Physiology

- 8) Identify common clinical terminology, abbreviations, and symbols relating to the diagnosis, pathology, and treatment of animals. (TN CCSS Reading 4)
- 9) Recognize various states of cellular homeostasis to identify infections, diseases, and mutations. (TN Biology I 1; TN Biology II 1)
- 10) Review fundamental concepts pertaining to tissue and organ systems by comparing and contrasting the structure and function of different tissue types, including epithelial, connective, muscle, and nervous tissues. Summarize in written or presentation format how cellular differentiation allows for specialized tissue development. (TN CCSS Writing 2, 4; TN Biology I 1; TN Biology II 1)
- 11) Identify and research the major body systems, including skeletal, muscular, respiratory, digestive, nervous, integumentary, urinary, and reproductive system. Develop models to compare and contrast between different species of small and large domesticated animals. (TN CCSS Reading 7; TN A&P 1, 2, 5, 6)

Clinical Nutrition

- 12) Perform nutritional assessment techniques, including body condition scoring and life stage to determine the nutritional status of animals. Apply this information to recommend balanced rations, providing written and oral justification to support recommendations. (TN CCSS Reading 1, 3, 9; TN CCSS Writing 2)
- 13) Research the relationships of diseases and disorders to digestion, absorption, and metabolic processes using case studies, instructional materials, and scholarly journals. Assess the impact of

various diseases and disorders on the maintenance of optimum nutrition levels in the body. (TN CCSS Reading 1, 2, 5, 9)

Clinical Procedures

14) Correctly identify and describe the function of common equipment used in the clinical area of a veterinary practice, including but not limited to examination tools, radiology equipment, ultrasound equipment, surgical equipment and testing equipment. Develop a checklist including safe use and maintenance for specific equipment. (TN CCSS Reading 2, 9; TN CCSS Writing 4, 8, 9)

15) Demonstrate, in a live setting or in a presentation, physical examination procedures in the following areas:

- a. Identification of exam purpose, importance, and routine tasks
- b. Completion of new client health history report
- c. Identification and evaluation of factors affecting the physiological state of animals
- d. Identification of characteristics and signs of healthy animals
- e. Demonstration of procedures to accurately obtain and record vital signs
- f. Identification and evaluation of effects of age, stress, and environmental factors on vital signs

(TN CCSS Reading 3)

16) Identify and recommend the optimum timeline for administering different types of vaccines suitable for different species. Demonstrate, in a live setting or in a presentation, the ability to:

- a. Identify injection methods
- b. Identify appropriate anatomical injection sites
- c. Administer the injection, including the selection of appropriate equipment

(TN CCSS Reading 3, 7, 9; TN CCSS Writing 2)

17) Explain the importance of contamination prevention as related to the veterinary industry. Demonstrate, in a live setting or in a presentation, the ability to explain and follow contamination control procedures relating to the following areas:

- a. Principles of sanitation, disinfection, antiseptics, and sterilization
- b. Exam room care and sanitation procedures
- c. Classification of sterilants, antiseptics, disinfectants, and their appropriate applications
- d. Hazardous waste management
- e. Proper techniques to fill a syringe for a prescribed dosage

(TN CCSS Reading 1, 3, 7, 9)

Animal Nursing

18) Design a plan of care by interpreting patient records and treatment plans, and perform basic nursing and patient monitoring tasks. (TN CCSS Writing 2, 4, 9)

19) Outline basic first aid, wound care, and bandaging procedures and compare the different procedures in relation to small and large animals. Demonstrate, in a live setting or in a presentation, the ability to follow these procedures precisely, while distinguishing between small and large animals for the following areas:

- a. Canine cardiopulmonary resuscitation (CPR) procedures
 - b. Assessment and care of common physical injuries such as cuts, abrasions, and contusions
 - c. Wound therapies at different phases of healing
 - d. Types and purposes of bandages, splints, slings, and casts, and indications for use
 - e. Techniques for application and removal of bandages
 - f. Caring of animals during the birthing process
- (TN CCSS Reading 3)

- 20) Research and explain laws and regulations related to the administration of prescription and over-the-counter medication within the veterinary industry to develop a customer fact sheet for common medicines, citing specific text from legislation. Demonstrate, in a live setting or in a presentation, the ability to follow medication administration procedures precisely, including:
- a. Identification of common medications and their required storage, handling, and disposal
 - b. Demonstration of administration techniques for topical and oral medications
 - c. Interpretation of medication label and packaging information
 - d. Calculate proper dosages of medications based upon label directions
- (TN CCSS Reading 2, 3; TN CCSS Writing 2, 4, 7, 9)

Laboratory Procedures

- 21) Compare and contrast appropriate laboratory quality control procedures such as the proper collection, preparation, handling, and storage of biological samples, and describe their effects on obtaining accurate data from laboratory procedures. (TN CCSS Reading 8, 9; TN CCSS Writing 2, 7, 9)
- 22) Develop a procedural check sheet to aid in conducting veterinary clinical hematology procedures such as complete blood count (CBC). Using the check sheet, demonstrate, in a live setting or in a presentation, the ability to follow clinical hematology procedures precisely in relation to the following areas:
- a. Sample collection, preparation, and storage
 - b. Microscopic examination to identify blood cells
 - c. Interpretation of normal and abnormal results
- (TN CCSS Reading 3, 7, 8)
- 23) Explain and justify the need for conducting urinalysis and fecal analysis as related to animal health. Outline procedures for conducting clinical urinalysis to include the following:
- a. Sample collection, preparation, and storage
 - b. Physical, chemical, and microscopic examination procedures
 - c. Interpretation of normal and abnormal results
- (TN CCSS Reading 3)

Principles of Disease

- 24) Compare and contrast the role of the USDA, state veterinarians, state animal disease laws, and diagnostic labs in disease prevention and control. Explain the classification of diseases and disease processes, and identify causative factors and agents of disease in a graphical illustration or written analysis. (TN CCSS Reading 7, 9; TN CCSS Writing 2, 9)

- 25) Explain how diseases affect the body and differentiate between clinical signs and symptoms of disease. Identify and describe the differences between clinical signs and symptoms of proper health and poor health. (TN CCSS Writing 2, 7, 9; TN CCSS Writing 2, 4, 7, 9)
- 26) Identify symptoms of common animal diseases and their causative agents, and summarize methods of prevention, treatment, and control by drawing evidence from informational texts or recent medical literature. (TN CCSS Reading 2, 7, 8, 9; TN CCSS Writing 2, 7, 9)
- 27) Describe the clinical signs of an animal with a parasite infection. Compare and contrast the symptoms of common internal and external parasite infections and summarize methods of prevention, treatment, and control between small and large animals. (TN CCSS Writing 2, 9)

Clinic Management

- 28) Demonstrate effective oral and written communication skills needed in clinical settings, including but not limited to client greeting, telephone answering, appointment scheduling and management, and admission and discharge procedures. Outline the procedures for euthanasia and post mortem customer care and role-play appropriate grief counseling services for clients. (TN CCSS Reading 2, 7, 9; TN CCSS Writing 2, 4)
- 29) Identify the types of medical records required in veterinary practices. Explain, justify, and demonstrate correct procedures for the completion and filing of veterinary records and related documentation in a professional and legal manner. (TN CCSS Reading 1, 7, 9; TN CCSS Writing 2, 9)

Standards Alignment Notes

*References to other standards include:

- TN CCSS Reading: [Tennessee Common Core State Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects](#); Reading Standards for Literacy in Science and Technical Subjects 6-12; Grades 11-12 Students (page 62).
 - Note: While not directly aligned to one specific standard, students who are engaging in activities outlined above should be able to also demonstrate fluency in Standards 6 and 10 at the conclusion of the course.
- TN CCSS Writing: [Tennessee Common Core State Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects](#); Writing Standards for Literacy in History/Social Studies, Science, and Technical Subjects 6-12; Grades 11-12 Students (pages 64-66).
 - Note: While not directly aligned to one specific standard, students who are engaging in activities outlined above should be able to also demonstrate fluency in Standards 3, 5, 6, and 10 at the conclusion of the course.
- TN A&P: Tennessee Science: [Anatomy and Physiology](#) standards 1, 2, 5, 6.
- TN Biology I: Tennessee Science: [Biology I](#) standard 1.
- TN Biology II: Tennessee Science: [Biology II](#) standard 1.

- AFNR: [National Agriculture, Food and Natural Resources \(AFNR\) Career Cluster Content Standards](#): Students engaged in activities outlined above should be able to demonstrate fluency in Standards AS.01, AS.02, AS.03, AS.04, AS.06 at the conclusion of the course.
- P21: Partnership for 21st Century Skills [Framework for 21st Century Learning](#)
 - Note: While not all standards are specifically aligned, teachers will find the framework helpful for setting expectations for student behavior in their classroom and practicing specific career readiness skills.
